The MSSU Bookstore in Billingsly Student Center will be open from 9 A.M. - 1 P.M. for your convenience and a Spirit Store is available near the main entrance of Leggett & Platt Athletic Center.

KGCS and the student broadcast group, the National Broadcasting Society, will produce DVD copies of today's ceremony. Order forms are available on the program tables located at the entrances.

While every effort is made to ensure accuracy in this program, graduation filing deadlines, printing deadlines and degree audit adjustments can prevent inclusion of graduates' names or may result in publishing names of individuals not completing degree requirements. This program, therefore, should not be used to determine a student's official academic or degree status.

Points of Pride

2013 Outstanding Alumni & Lion Hearted Recipients

Retired CIA staff member **Rob Roy Ratliff**, '47, Gaithersburg, Md., and Nutra Blend executive **Mike Osborne**, '76, Neosho, received the 2013 "Outstanding Alumni Award" from the MSSU Alumni Association.

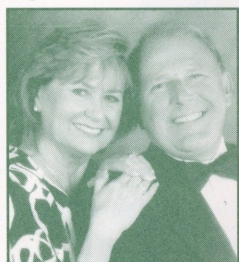

Born and raised in Webb City, Ratliff served in the Marine Corps during World War II. He received his AA degree from Joplin Junior College in 1947 before attending American University in Washington, D.C. He was a clandestine officer in the Central Intelligence Agency, serving in the Philippines, the Republic of China in Tawian and British Guiana in South America. He was awarded the Intelligence Medal of Merit when he retired in 1980.

He and his wife, Rebecca (a Joplin Junior College classmate), live in Gaithersburg, a suburb of D.C.

Osborne graduated from Missouri Southern with a bachelor's degree in business administration in 1976. He became secretary treasurer of Neosho's Nutra Blend in 1976, and was named president and CEO of the company in 1989. The company has grown from a start-up to revenues of more than \$800 million per year, with facilities from coast to coast.

Osborne and his wife Terry (who has an associate's degree in nursing from Missouri Southern) have been married for 37 years.

The 2013 Lion Hearted Award – which goes to non-graduates who have provided significant assistance and support to the university – went to **Don and Gloria LaFerla**.

'Getting The Job Done'

In the wake of the tragic death of Missouri Southern Assistant Football Coach **Derek Moore** on Nov. 1, a fund was established for his 6-year-old son, **Elijah**.

"We know Derek loved the Missouri Southern Lions and the Lions loved him," said Missouri Southern Interim President Alan Marble, '79. "We feel this is a fitting tribute to Derek's life and work. We encourage fans to give at the game or to make a contribution to the Go Lions Elijah Moore Trust Fund."

"On the field, Derek was all about getting the job done," said MSSU Athletics Director Jared Bruggeman. "Now we want to get the job done for him."

Those wishing to contribute to the fund may do so on the Missouri Southern Foundation's giving page or in person at Commerce Bank, 211 Main St., in Joplin.

Continued Growth

Last month, the Missouri Southern Board of Governors approved a recommendation to proceed with plans for construction of a new, \$14 million residence hall complex.

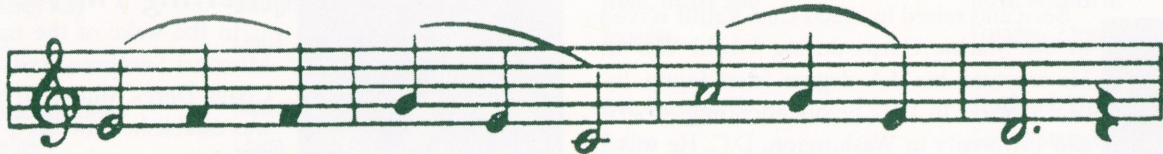

To be located north of Newman Road and east of International Boulevard, the three-story complex will feature 51 student apartments throughout six buildings, the vast majority of which will be four bedrooms. Each bedroom will have its own bathroom, and students will share a common living area and full kitchen. Each apartment will also have its own washer and dryer.

The exterior of the complex will include an open courtyard and common areas, a pedestrian-friendly design and parking on the back side. In addition, plans call for the construction of a 12,720-square-foot FEMA shelter next to the complex.

Laird was principally responsible for the lyrics while Jackson set it to music. It was first sung during a Class-Day program in 1939.

Academic Attire

As early as the twelfth century the first modern universities, at Bologna and Paris, were centers of European learning. The usual garb of the time, for both churchmen and laymen, was a long gown which was necessary for warmth in the unheated buildings of the day. Scholars, generally members of church orders, wore such robes and also hoods to protect their shaven heads. Later, skull caps were worn on the head, and the hood became a cape which could be pulled over the head in unpleasant weather. The hood was also sometimes used to collect alms from the more affluent members of the community. As additional universities were founded, distinctive forms of the gown and hood were adopted by their faculties. Variations indicated ranks within the institutions. Strict rules were published and in some cases punishment cited for tailors who departed from the authorized design.

The academic hat was a later development, adapted from the headdress of the ordinary people. Academically, it was originally worn as a symbol of the master's degree, and existed in various forms: some were round, some square and some had a tuft in the center. The flat, square "mortar board" of today originated at Oxford University in England.

Academic costume came to America in 1754 with the founding of King's College, now Columbia University. Styles became quite varied as they were in Europe, but in 1895 a group of American college and university representatives met to establish a uniform system of academic apparel for this country. This led to the establishment in 1902 of an "Intercollegiate Code of Academic Costume." The American Council of Education formed a committee in 1932 to review the 1895 code, which was again reviewed and revised in both 1960 and 1965.

There are today three basic types of gowns and hoods. The bachelor's gown has pointed sleeves and is designed to be worn closed. Recipients of the associate degrees wear navy gowns designed like the bachelor's gown. The master's gown is designed with an oblong sleeve, open at the wrist and with an arc cut away at the front of the sleeve. It may be worn either open or closed. The doctoral gown is of a full design with voluminous sleeves, and it also may be worn open or closed. Unlike the other two, the doctoral gown is faced down the front with velvet and with three velvet bars on the sleeves. These may be black or a color related to the subject of the degree. Thus, arts, letters and humanities may be white, business degrees may be drab or sapphire blue, education uses light blue, fine arts is brown, music is pink and science is golden yellow, to name a few.

The caps are always black, with a black tassel for baccalaureate degrees and a tassel of the color indicated above for master's. Doctoral caps usually have a tassel of metallic gold color.

The hoods worn by master's degree recipients are lined with the official colors of the institution awarding the degree. The binding and edging of the hood is silk or velvet in the color pertaining to the subject area. Doctoral hoods are longer and designed somewhat fuller, but the colors again are those of the institution granting the degree for the lining, and of the subject for the wide edging. There exists a small bachelor's hood, but generally it is not used in this country.

The hoods represented in MSSU ceremonies are a combination of colors from each of the collaborating institutions. Traditional colors and corresponding fields of study are:

Brown:	Fine Arts	Pink:	Music
Crimson:	Journalism	Purple:	Law
Dark Blue:	Philosophy	Sage Green:	Physical Education
Golden Yellow:	Science	Scarlet:	Theology
Lemon Yellow:	Library Science	White:	Arts, Letters, Humanities
Light Blue:	Education	Yellow Brown:	Commerce, Business, Accountancy
